

HWEC8002IW

8KG SANICARE HEAT PUMP DRYER

FEATURES & BENEFITS

PERFECT SANICARE PAIR

For a clean, consistent and modern look in your home, pair the SaniCare dryer with the matching washer. And for a more seamless, space-saving setup, you can use the matching stacking kit³.

6TH SENSE

Powered by Whirlpool's 6th Sense technology, Intelli-Dry auto-detects the level of moisture in the clothes and adjusts the drying time automatically.

ALLERGY CARE

The Allergy care programme utilizes a combination of high heat and enhanced airflow to effectively remove up to 99.9% bacteria and allergens².

AIR REFRESH

The flow of fresh air helps to regenerate freshness by penetrating into the fibers of your laundry. This program effectively removes odours and relaxes fibers without heat.

REVERSE TUMBLING

The drum periodically changes its direction of rotation during a drying cycle to prevent tangling and promotes even and faster drying.

ANTI-WRINKLE

Prevent wrinkles from setting into your clothes after the drying cycle is complete, saving your time and effort on ironing.

TECHNICAL SPECIFICATIONS

COLOUR/FINISH	Global White
DISPLAY	Digital LED
CONTROL	Touch buttons
MOTOR TYPE	PSC Universal
DRY CAPACITY	8kg
TUB MATERIAL	Stainless Steel
PROGRAMMES	Mixed, Quick, Gentle, Down, Shirts, Eco cotton, Wool, Allergy care, Duvet, Air refresh
OPTIONS	Dry level, Delay, Anti wrinkle, Time dry
SAFETY	Child lock, Door close Indicator
DRYNESS LEVEL	3 Levels
ENERGY RATING	8 Stars
RATED POWER	650W
VOLTAGE	220V - 240V
PLUG TYPE	Australia Plug Type I
DIMENSIONS	W 595mm x H 848mm x D 650mm
NET WEIGHT	47kg
WARRANTY	5 year

1. Depth includes door.

2. Tested by an external 3rd party lab on Escherichia coli, Staphylococcus aureus, dust mites using Allergy care programme.

3. Sold separately as an accessory. Availability may vary by region.

4. Results may vary depending on fabric types and load.
